POP();

top
NULL

empty stack

ITEMS ARE POPPED
IN THE REVERSE
ORDER IN WHICH
THEY ARE PUSHED

FIRST PANCAKE
PLACED ON THE
PLATE WOULD BE
THE LAST PANCAKE
TO BE LIFTED.

LAST PANCAKE
PLACED ON THE
STACK WOULD BE
THE FIRST TO BE
LIFTED.

USE →
CASES

1. undo / redo implementation
2. reversing order
3. brackets balancing
4. forward / backward implementation

... and more
